

## Decks/Porches

**The following information is required before a permit for a deck or porch may be issued:**

- 1) Material.
- 2) Height of deck surface above adjacent grade, guard details if height is greater than 30 inches.
- 3) Number of risers in outside stairs, height of risers, depth of treads, details of tread nosings, handrails, guards, openings in risers if any, stringer dimensions, method of connecting stringers to deck.
- 4) Size, spacing, and span of girders and joists.
- 5) Details of bearing for girders and joists.
- 6) Method of connecting deck to building if applicable.
- 7) Size and spacing of columns supporting deck.
- 8) Section drawing of foundation if applicable.
- 9) Structural details of roof, if any. Include column size, spacing, and bearing; size, spacing, span, and bearing of beams and rafters; sheathing and roofing material; pitch of roof; method of connecting roof to building if applicable.
